

# Embedding Collaboration & Analytics in Applications An Architectural Approach

Ravi Har Singh Khalsa  
Adrian Reason  
January 28, 2010

THE HUMAN DIMENSION OF TECHNOLOGY

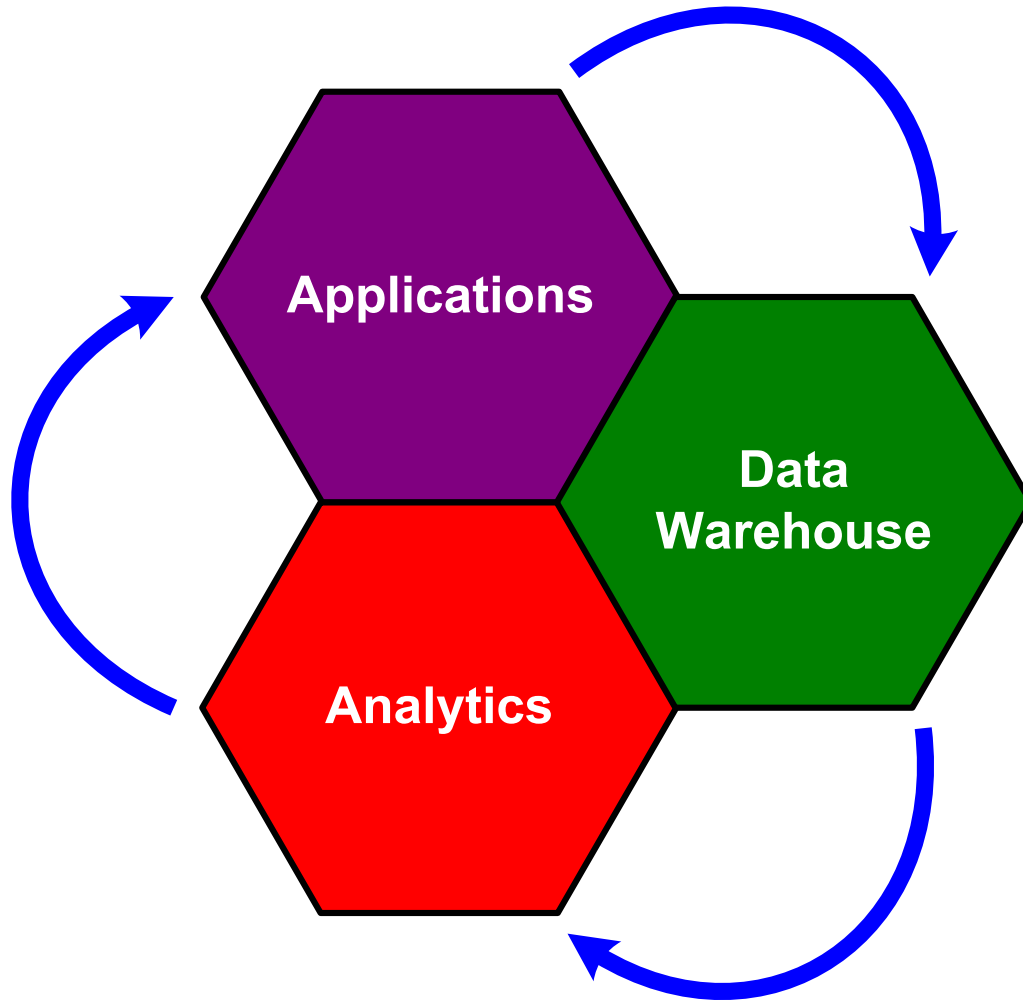

# Applications + Analytics

## Standard Services

- Database Drivers
- Relational Data
- SQL
- Metadata
- Web Services

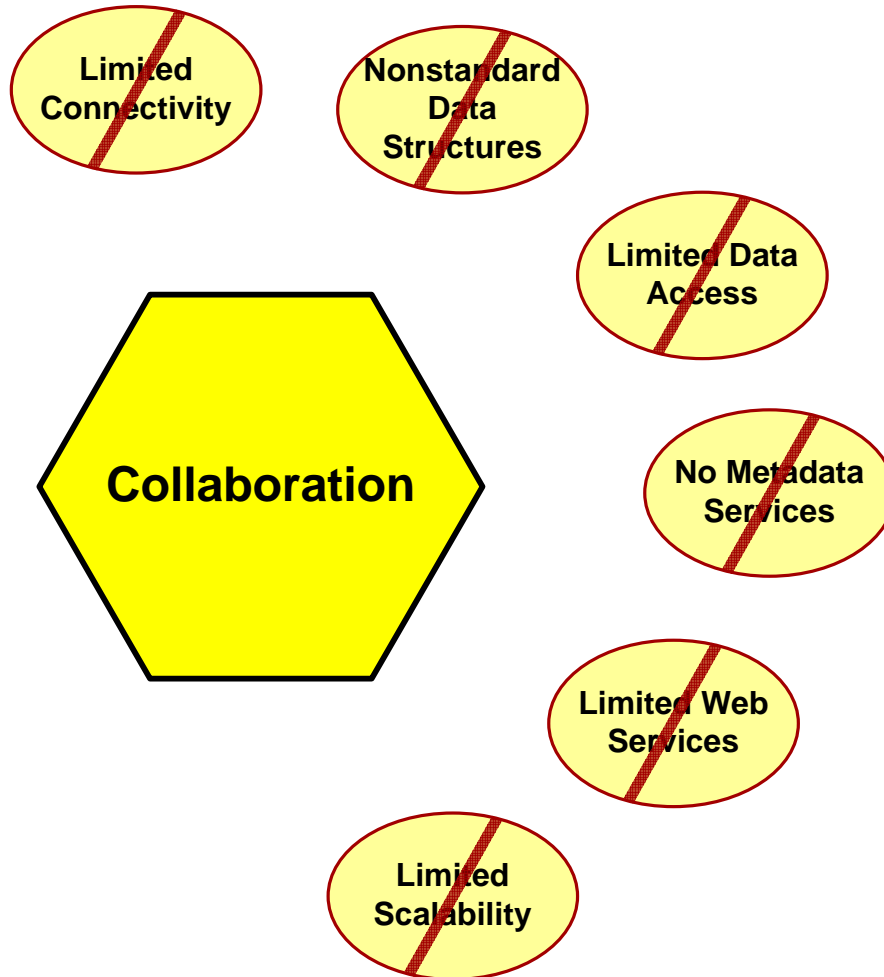

# Applications + Analytics

## Seamless Integration

- Applications
- Data Warehouse
- Analytics

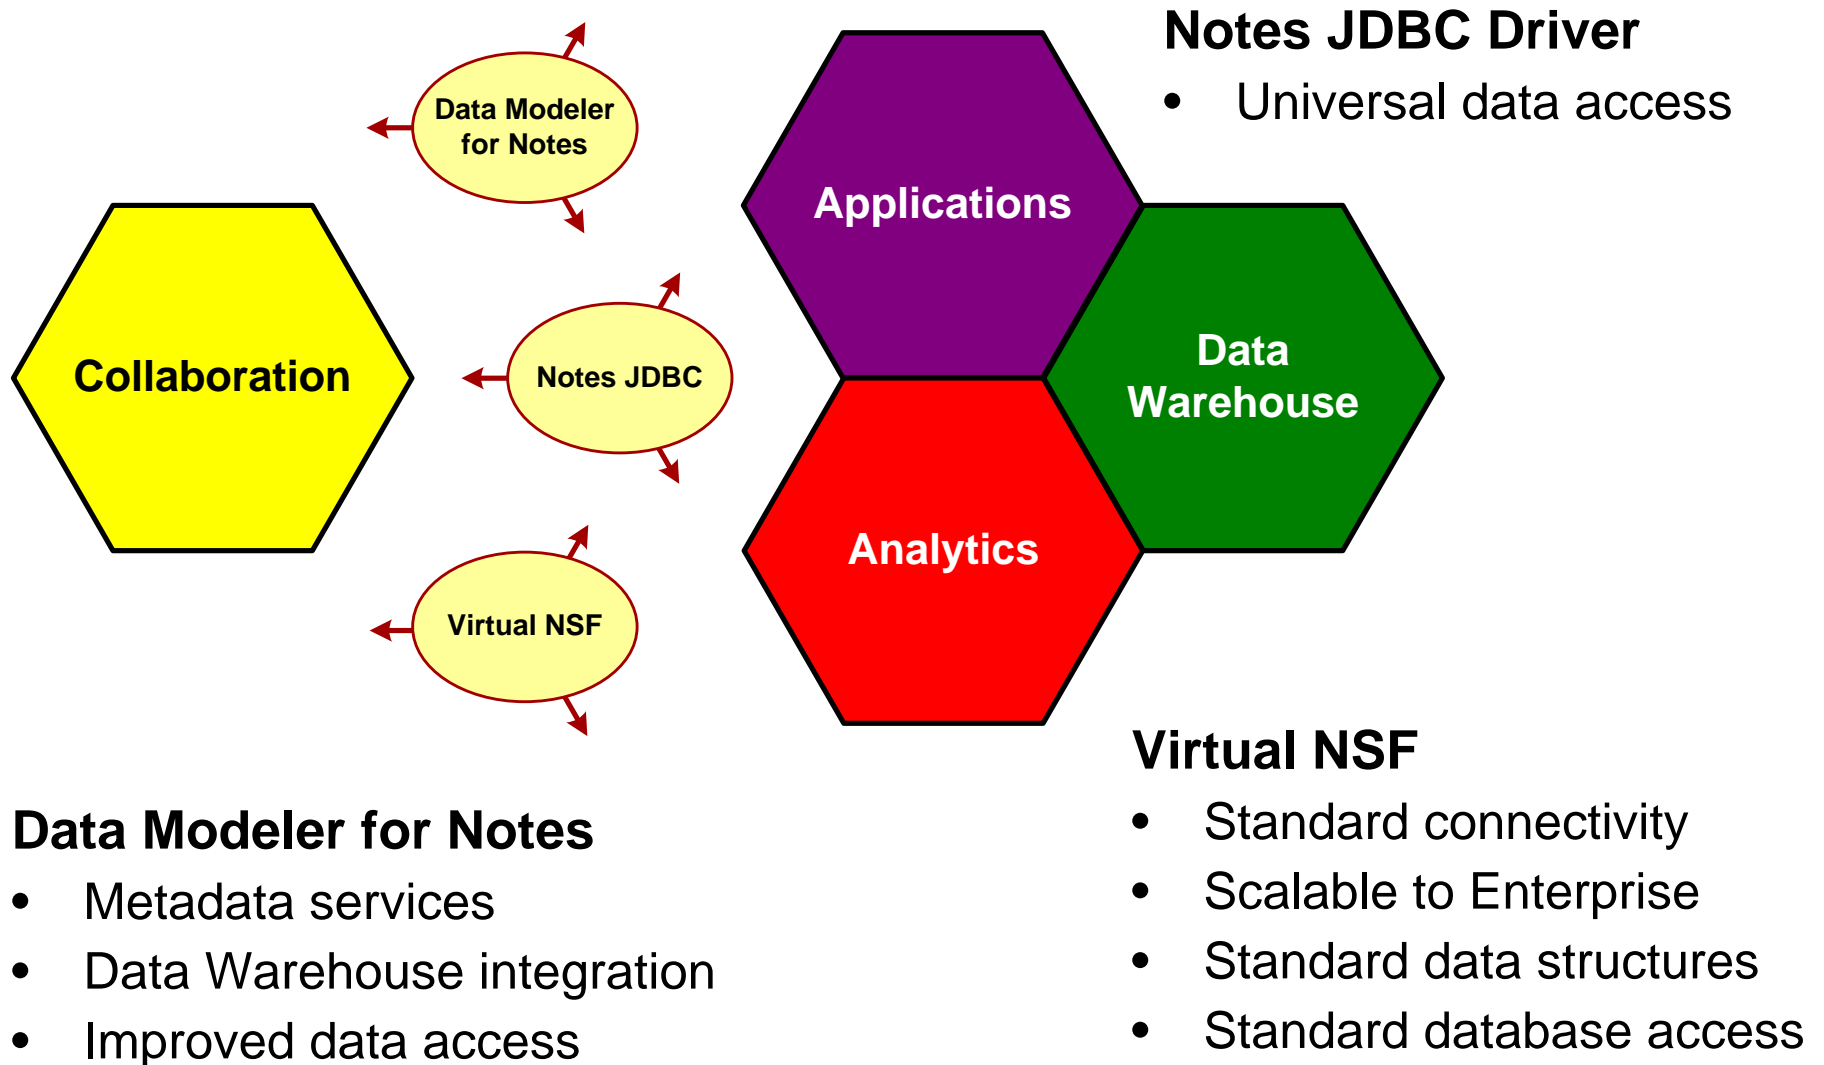

# Collaboration – barriers to integration

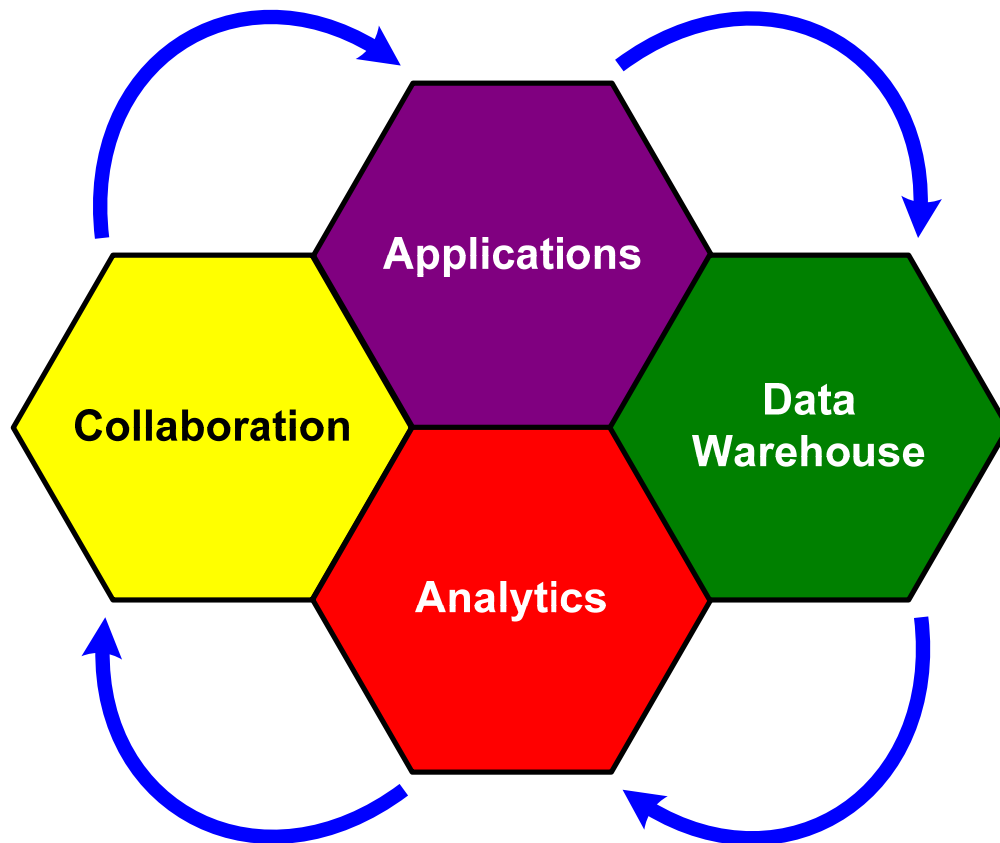

## Lotus Collaboration

- Messaging
- Meetings
- Collaborative Applications
- Shared Spaces
- Social Networking

# Integration Components from Sun & Son

# Applications + Analytics + Collaboration

An architecture which fully integrates Lotus Collaboration with IBM Applications, Analytics and Data Management

- Data Modeler for Notes
- Notes JDBC
- Virtual NSF
